IACBOX
Internet Access Control

Your patient or resident WiFi should be self-administrated, with easy user access and options for distinguished use policies?

You need simple login methods, clear user guidance, connection to HIS or database and to payment systems.

IACBOX provides SERVICE with self-registration, several payment options, HiMed and MedCom interfaces, ticket groups for different classes.

Recommended package
FULL license
HIS interface
Central Services (for admin web access)
Privacy Toolkit (for full comfort in terms of data protection)
or Silver Surfer edition (for senior residences)

- Flexible: Order hardware from us or your trusted supplier
- Future safe: Continous updates and upgrades
- Independent: Works with any WiFi hardware brand
- Legally secure: EU-based and operated on location
