IACBOX
Internet Access Control

Your public WiFi
should perform reliably, respect the
privacy of your passengers, guests
or citizens and elegantly welcome visitors
to your city, region or institution?

You need
a powerful, scalable system
with flexible design and communication options,
perfectly compliant with
data protection regulations.

IACBOX provides
PERFORMANCE
for up to unlimited users,
with smart bandwidth management,
login page editor and various options
for your desired content.

Recommended package
FULL license 1000 to unlimited
Software Maintenance 3 or 5 years
Central Services (for admin web access)
Privacy Toolkit (for full comfort in terms of data protection)
Application Control (for more control)

- Flexible: Order hardware from us or your trusted supplier
- Future safe: Continuous updates and upgrades
- Independent: Works with any WiFi hardware brand
- Legally secure: EU-based and operated on location
